# Tourism Data Space Governance Framework

# Tourism is... ... a major EU industry

**427 b**  
EUR visitors  
exports

**2.3 m**  
businesses

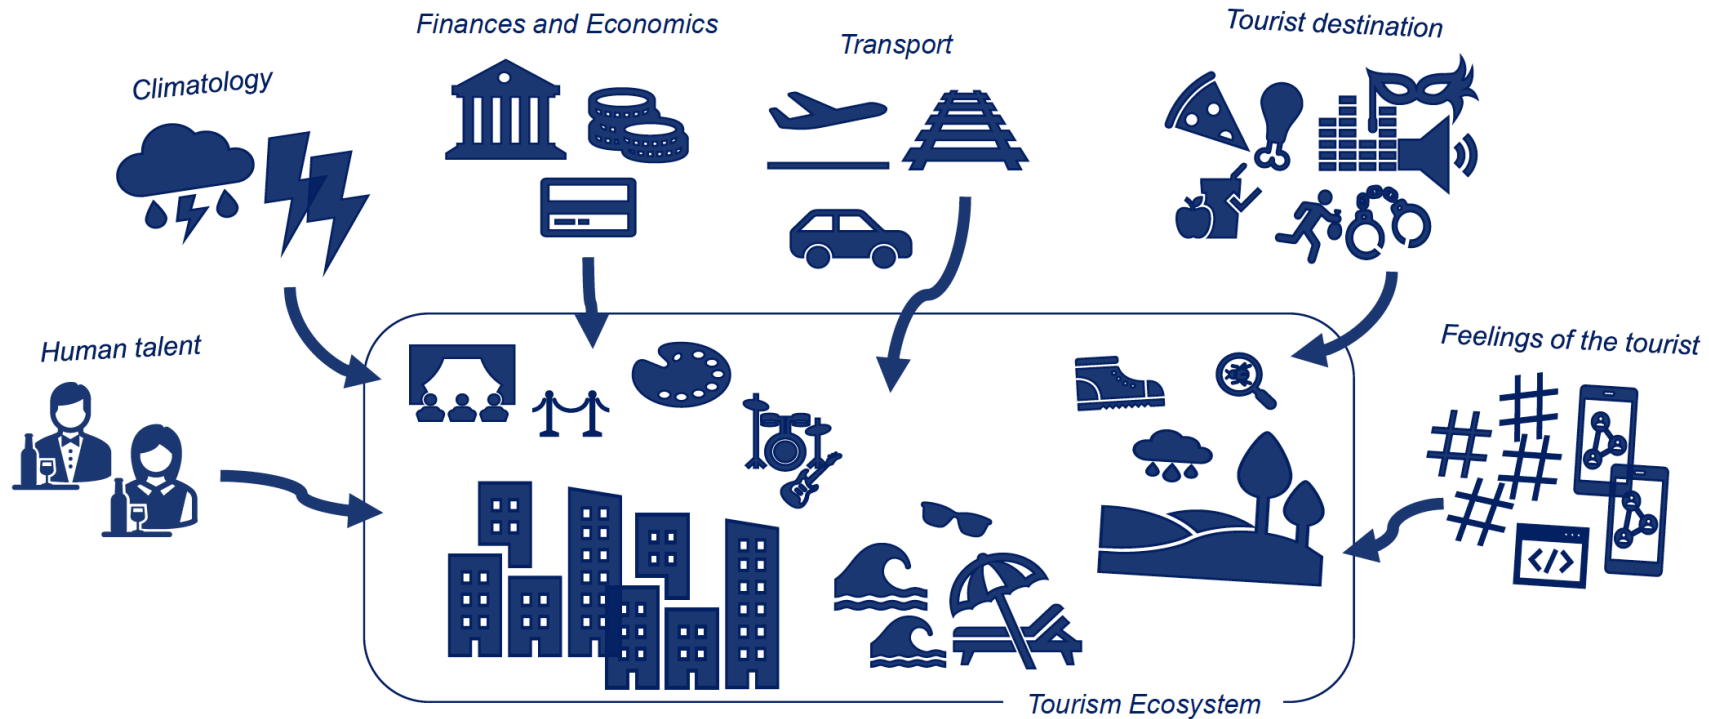

**12.3 m**  
direct jobs

**27.3 m**  
w. indirect jobs

**10.3%**  
of EU GDP

**745 m**  
international tourist  
arrivals  
50% of the global market

# Why Tourism needs a Data Space

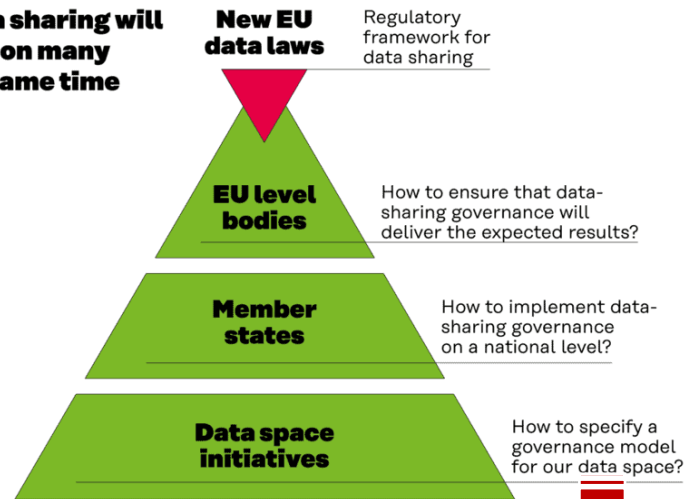

*"In Tourism, **different perspectives and private and public spheres come together,** and thus adequate modelling typically will involve variables beyond those of transactional or informational systems of operators"*

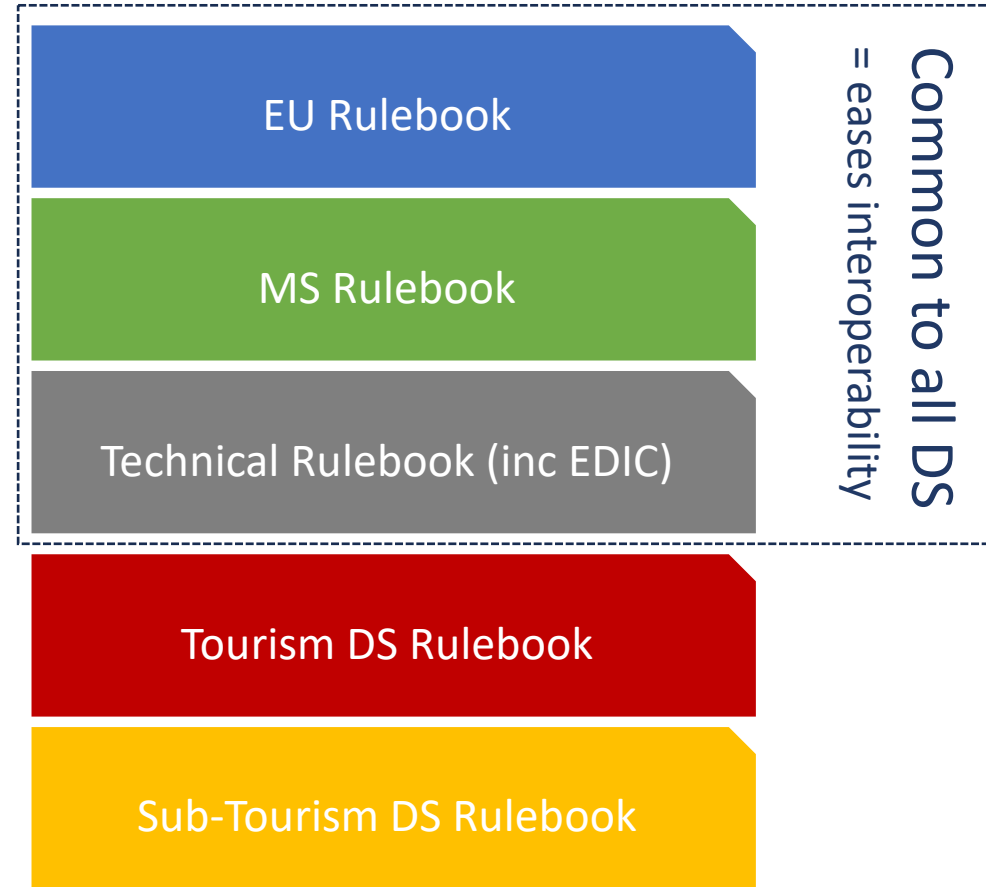

*That is why sharing data is so necessary!*

# What governance framework for TDS

**Rules for data sharing will be developed on many levels at the same time**

**Innovation and growth, for all type and size of actors, in a trustworthy framework**

Tourism Data Space Rule Book

# This is about Tourism, not Data sharing

Tourism Data Space Rule Book

# Tourism data space governance starts with Tourism sector governance

# Fundamentals of Tourism Data Space Governance Framework

The tourism data space rule book adheres to relevant EU and national regulations, both in terms of Data and in terms of Tourism relevant regulation, and incorporates local rules for the particular data space determined through its own decision-making processes (i.e., which standards, guidelines or business agreements are enforced within the Tourism Data Space).

# 2nd Pillar of Tourism Data Space Governance Framework: Roles

\*: Data Strategy, Data Sovereignty,  
Data Sharing, Data Spaces

**Dissemination of regulations**

**Identification of governance gaps**

**Resolution of overlapping competencies**

**Alignment within a Data Space**

**Conflict resolution across Data Spaces**

**Balancing innovation and regulation**

**Learning**

**Compromise**

**Adaptive regulation**

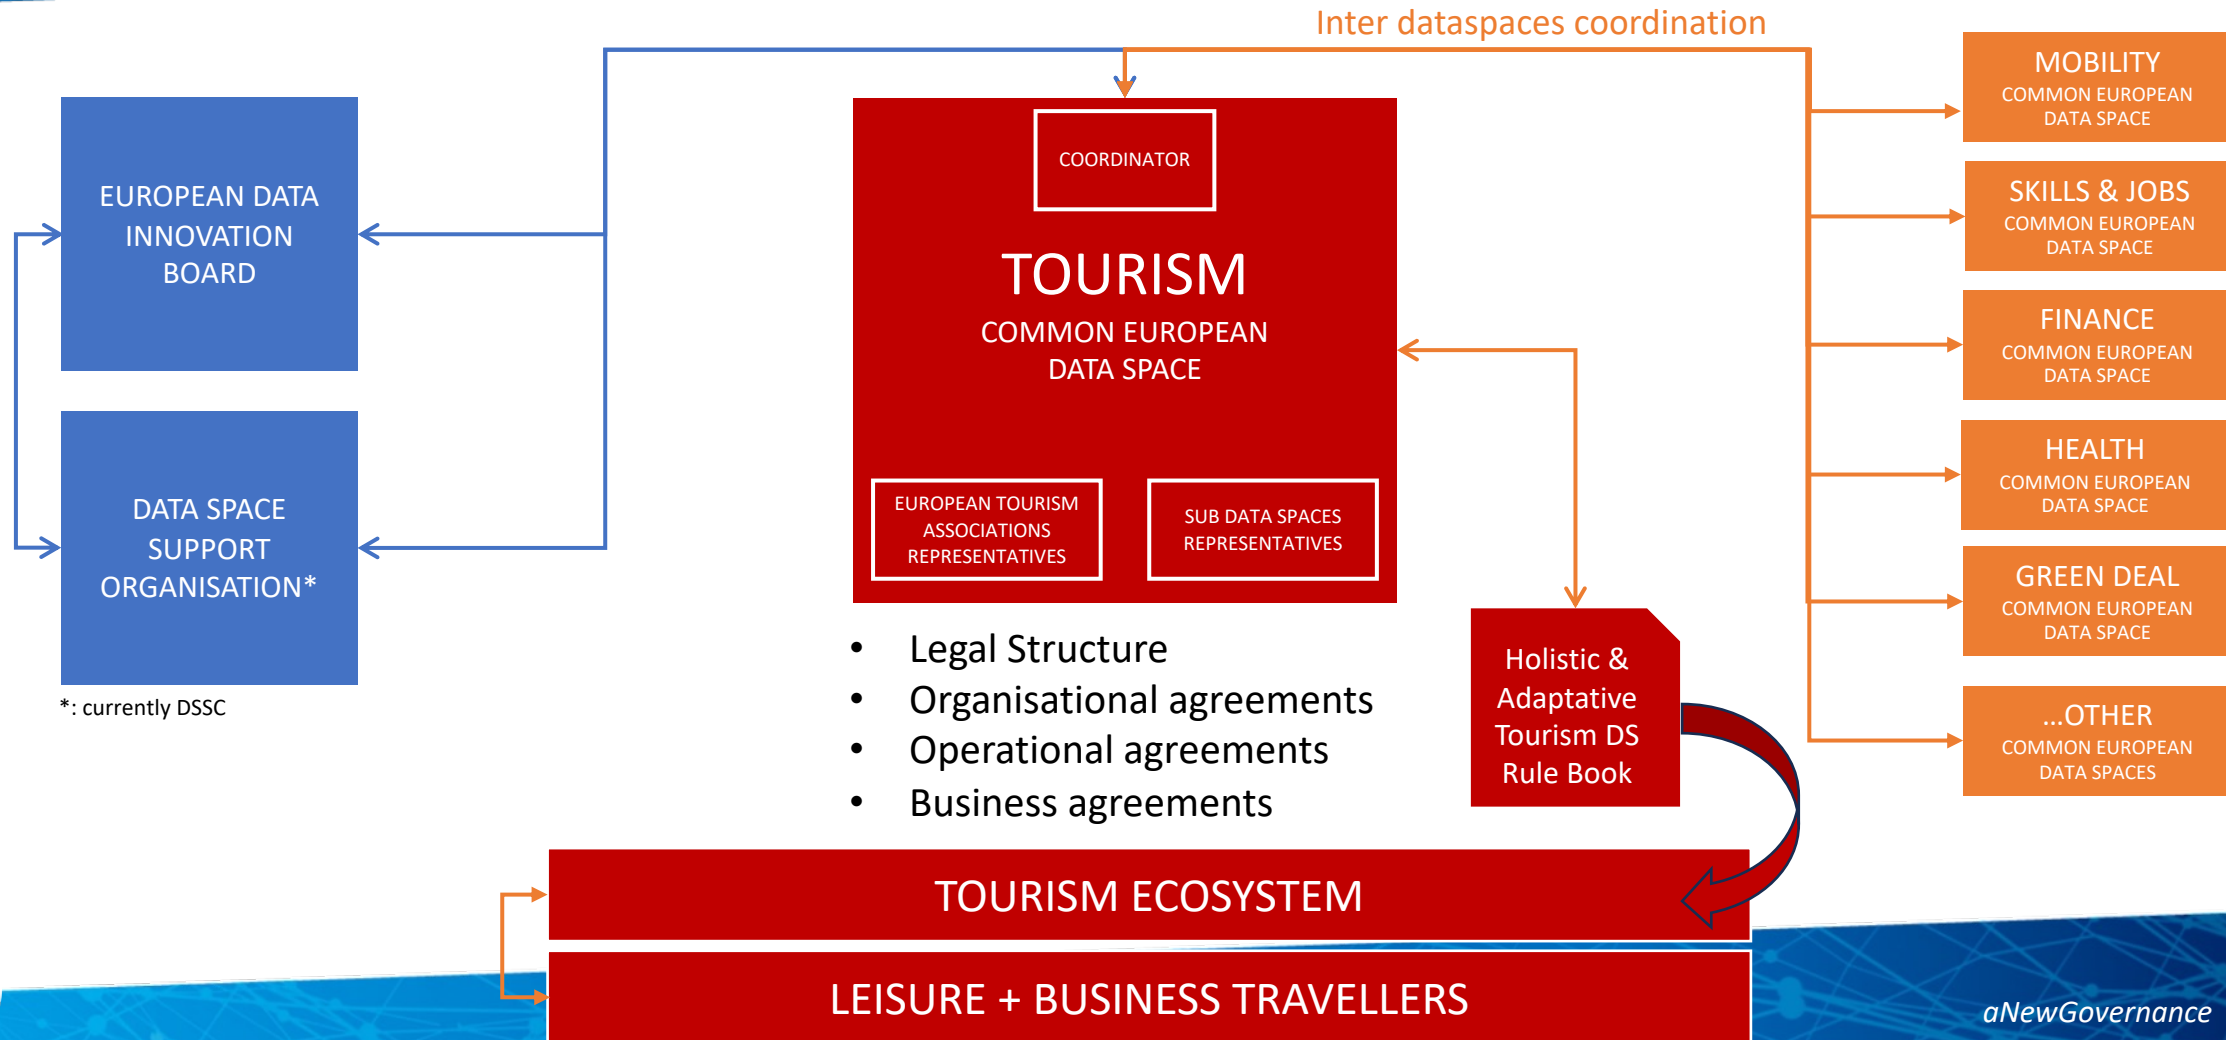

More details in  
**Towards a Holistic European  
Data Governance**  
Due for publication September 2023
