Data Spaces in Europe

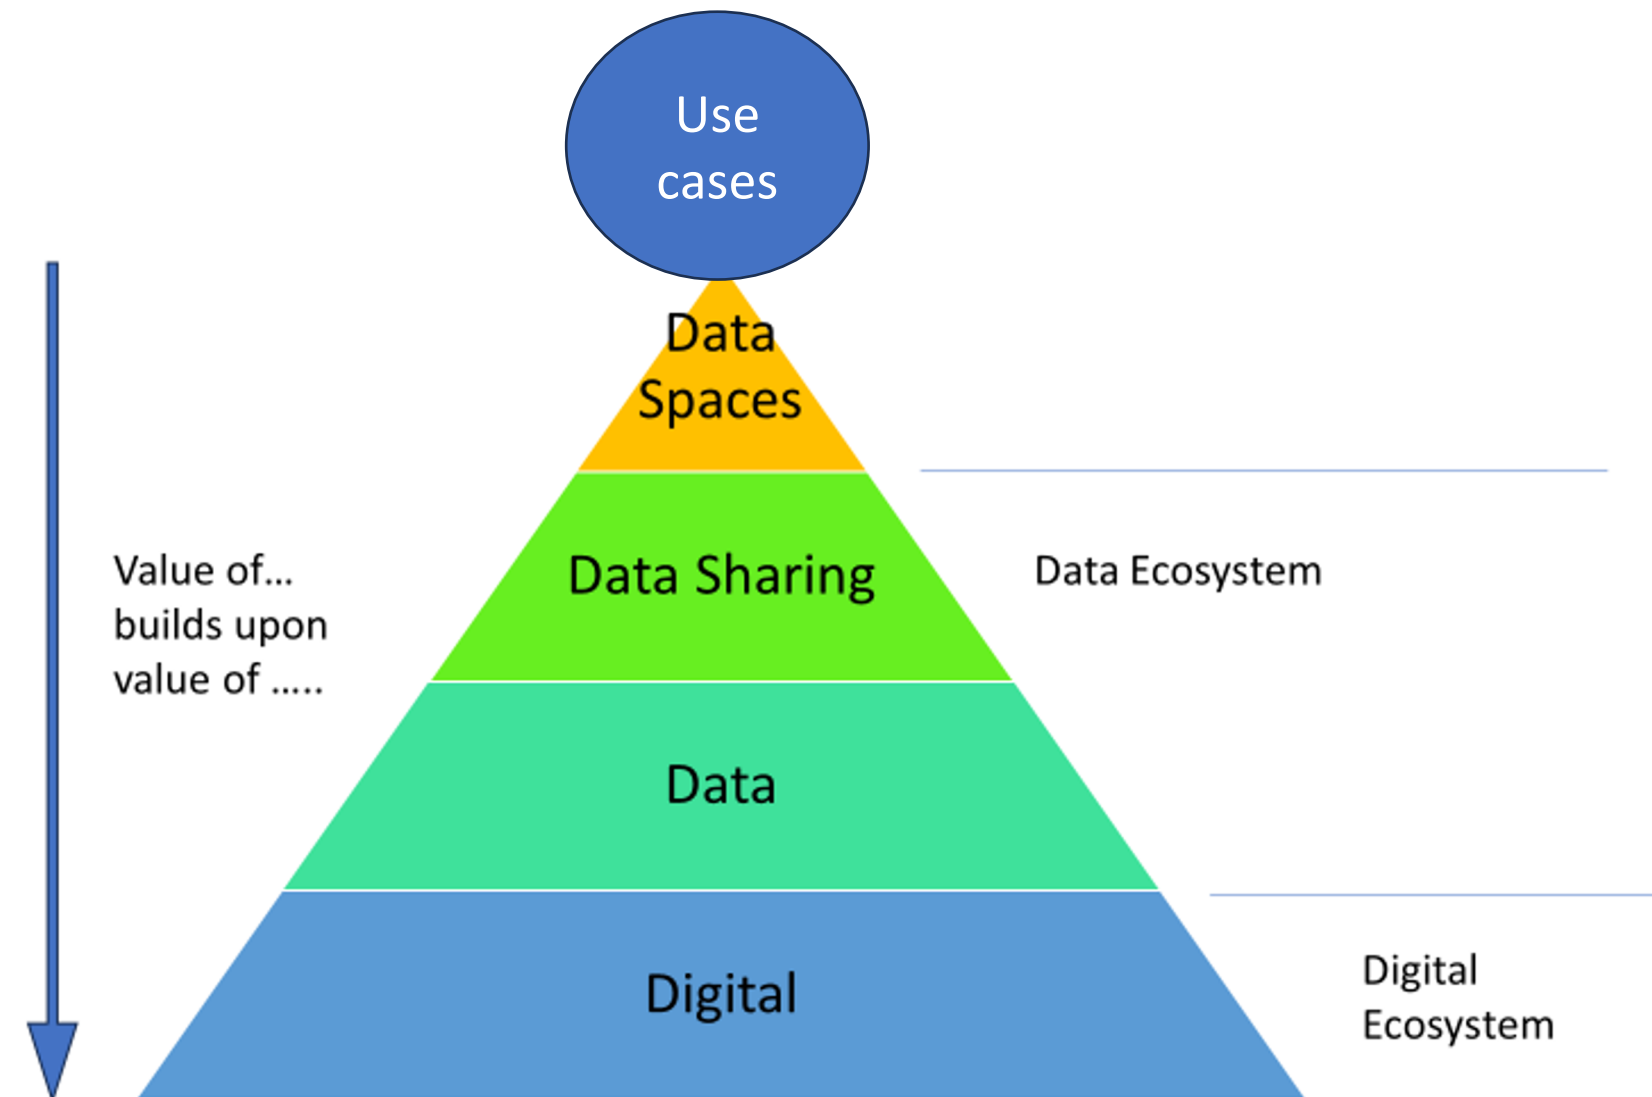

Clara Pezuela (FIWARE)

Funded by
the European Union

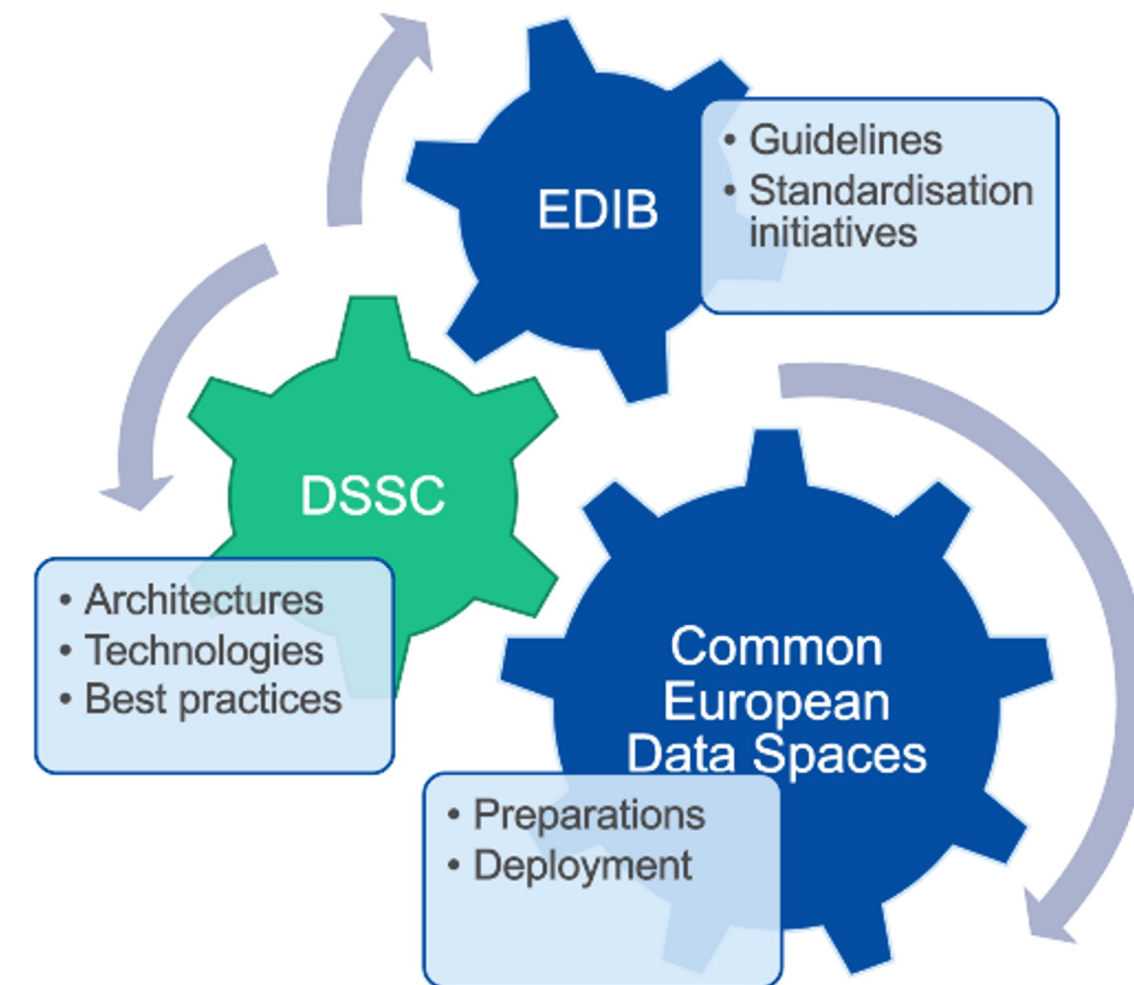

Context of data spaces

- Data Spaces were introduced in the European Data Strategy to support the idea of “single market of data”
- The value of data spaces relies on the value of data sharing and therefore on the value of data
- Data Spaces operate in digital ecosystems and inherit some of their characteristics
- Being concrete through use cases

Data Spaces Support Centre mission

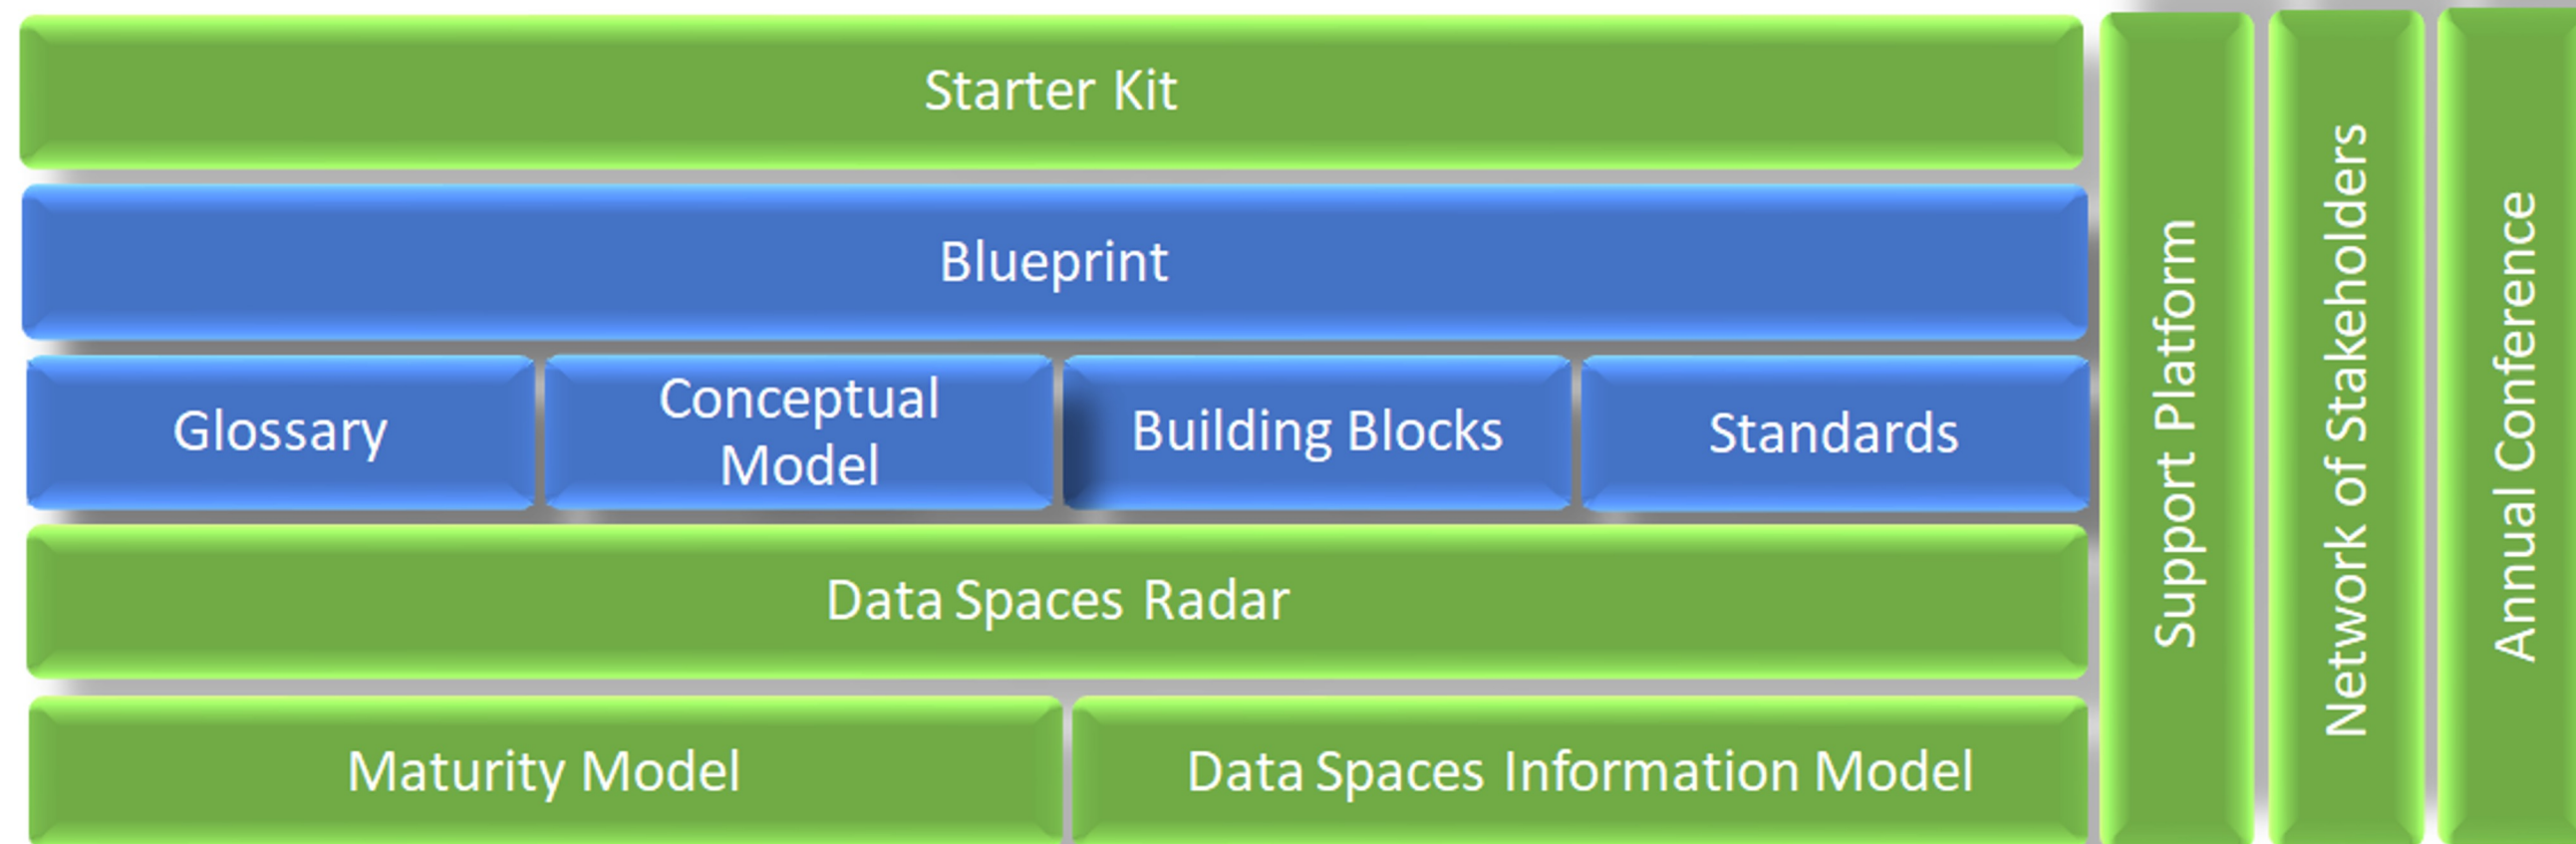

**DATA SPACES
SUPPORT CENTRE**

- Enable data spaces to reach a higher flight level faster: a **quick start** and an **accelerated scale-up**
- Provide the tools to address the **basic organizational and technical matters**, required by every data space
- This includes a **blueprint**, best practices, common standards and reference implementations which will be developed according to a **co-creation process**
- Enable dataspaces to focus on their domain-specific business challenges and **provide business benefits to their participants**
